

**Ready to wash, shine & dry.
All for one great price.**

The touchless wash that thinks of everything – including your ROI.

Belanger's Saber® SL2 is a true 'Wash & Dry Ready' touchless automatic, with built-in appeal for operators and customers alike. Wash owners love the Saber® SL2's industry-leading price/value ratio, while customers are drawn to its appealing wash experience and ease-of-use.

In fact, the Saber® SL2 is designed for rapid and sustained return on investment – with standard features including two-step presoaks, triple foam, two wax applications and the DuoDry™ system that offers on-board and drive-thru drying on the same machine – even both in the same wash cycle! What's more, its dual wash arms allow simultaneous chemical application and medium-pressure rinsing – for highly visible efficiency.

If you'd welcome more business, start welcoming more customers.

An industry first, the standard LED Navigation System™ features illuminated dual wash arms with RGB color changing LED lights, that flash **GREEN** so users 'pull forward,' **BLUE** for 'back up,' and **RED** so they 'stop' for washing. This patent-pending technology helps drivers load their vehicles 'fast and easy' – while providing a 'wow' factor that attracts customers, and keeps them coming back.

That LED Navigation System™ welcomes drivers into a bright, airy and open wash bay – showcasing Belanger's ClearBay® design. Using the VPS Virtual Positioning System®, it eliminates the floor treadle. And since the wash runs on overhead travel rails, not floor-mounted 'train tracks,' no guide rails are needed, either. So the bay floor is 'wide open' and inviting. Simply put, if customers can pull into a garage, they can use the Saber® SL2 – with confidence.

- LED Navigation System™ helps drivers load, fast & easy! Wash arms flash **GREEN**, so users 'Pull Forward' ...

- If the driver 'overshoots' while loading their vehicle, the arms flash **BLUE** to signal that they should 'Back Up' ...

- Arms flash **RED**, telling users to 'Stop for Washing,' and continue flashing until the end of the wash cycle

- Customize with your logo, colored accent stripes and matching neon border around the branding panel

Designed to wash more cars profitably. Built to keep washing them longer.

While the Saber® SL2's appeal to customers is unmistakable, its value to operators is undeniable. The overhead rails keep its motors and gears 'up away' from dirt, ice and grime. And with just two motors and three moving parts, the Saber® SL2 is built to keep running. Plus, its 'no grease points' design dramatically reduces maintenance needs – helping deliver 'uptime' of 99% or more.

To keep your wash productive, the Auto-Resetting Breakaway Arms **reset themselves automatically** in case of an accidental vehicle strike. And for maximum flexibility and speed, the High Vehicle Output software allows chemical application in either direction, while keeping the arms open for 'speed passes' that increase production for rinsing, drying agents, waxes, and spot-free 'RO' water.

With the Saber® SL2, you build the wash business you want!

Start with the high-ROI Saber® SL2 system, and add your choice of additional profit-producing options:

- SideKick® Dryers
- Undercarriage Blaster
- Rocker Spin Cleans
- Bug Spray Applicator
- Branding Panel with Custom Logo
- DuraShiner® CF Tire Shiner
- Signage
- Cold Weather Options
- Free-Standing Dryer Configurations
- Spot-Free Water
- Water Softener

- Auto-Resetting Breakaway Arms reset automatically in case of accidental vehicle strikes, maximizing uptime

- Complete Solution Delivery System includes two-step presoaks, triple foam, and two wax applications

- DuoDry™ system provides both drive-thru & on-board drying, for maximum throughput and wash menu flexibility

- Timeless Dry™ dries the vehicle as your optional RO system rinses it clean, for faster throughput

It's **YOUR** Wash Make It Your **BRAND**

The Saber® SL2 is available with a branding enhancement package that enables you to customize the exterior appearance of your Saber® SL2 to correspond with your facility's branding needs.

Use our Web site's **Build-A-Wash™** online tool at www.Belangerinc.com/buildawash to build and price your own custom Saber® SL2, complete with color choices and optional equipment!

What owners are saying ...

"The Saber puts out a cleaner car than our rollover ever did – and our customers really enjoy using it! Everyone gets their car in position, on the first try. Best of all, I never have to come reset the wash!"

Todd Hoskins, Miracle Car Wash

"The Saber is a night-and-day improvement over our old wash. The color change arms are user-friendly, getting folks in position fast. They count on us for a quality wash, and we depend on the Saber to deliver it."

Doug Proal, Pueblo West Kwik Stop

"The Saber elevates our bay from 'gas station wash' to valued destination. The friendly design and lighted arms 'wow' every user ... and the standard triple foam and dual wax options make it truly 'top wash' ready!"

Rick Levitan, Waverly Woods Shell
